Art Editor----------Jackie Rogers

Sponsor---------Allouez Blackburn

The school was saddened on the 21st day of November by something none of us like to think about. The Grim Reaper came. When he was gone he took with him Doris Seals. Because she was a symbol of students everywhere, we dedicate this annual to her memory.

Superintendents Message

To the Seniors of Hawley High School, and to their Sponsor, Miss Blackburn, we wish to express our sincere appreciation for the work that has gone into the preparation of this Year Book, and for the many other services rendered our school.

We want to take advantage of this brief space in your Annual to leave a thought with you which we feel is vital to a continuation of our American way of life.

It has become quite common-place now-a-days for, not only the youth of our land, but people in general, to make more and more demands on society. They demand more rights, more freedoms, more liberties, more protections, higher wages, shorter hours, larger profits, and even demand personal protection when they advocate the violent over-throw of our own government.

The point for each of us to remember is that for each new liberty we must assume a new responsibility, and we must fulfill these responsibilities if we are to preserve and perpetuate the individual freedom and democratic government which we now enjoy. It is our responsibility to defend our nation against all its enemies, whomsoever, to be familiar with the Constitution, to make honest, wise and courageous use of the free and secret ballot at every election. It is the responsibility of every citizen to instruct others in the principles of freedom and to spread the ideals of democratic government at home and abroad.

We have every confidence in the students of Hawley High School, as well as the youth of our entire land. We know that you are willing to assume all the responsibilities that go with the freedoms you enjoy in order to maintain the form of government we have in this wonderful country that is ours.
